Summary

Frontend Web Developer with a strong foundation in HTML, CSS, JavaScript, PHP, and MySQL. Experienced in building responsive, user-friendly websites and dynamic web applications. Skilled in translating designs into functional interfaces, optimizing user experience, and integrating frontend components with backend databases.

Skills

Programming & Scripting HTML, CSS, JavaScript, PHP

DataBase & Backend MySQL, PHP–MySQL Integration

Frontend Development Responsive Web Design, Cross-Browser Compatibility, UI/UX Best Practices

Experience

Web Development Intern

September 2024 – October 2024

Online (Teachnook)

Technologies: HTML, CSS, JavaScript, PHP, MySQL

- Learned, implemented, and enhanced core frontend technologies including HTML, CSS, JavaScript, and responsive web design principles to create structured, visually consistent, and user-friendly web pages aligned with modern web standards.
- Worked on backend integration using PHP and MySQL, handling database creation, form validation, data storage, and secure retrieval of user inputs.
- Designed and developed a basic e-commerce website featuring About, Product, and Contact pages, ensuring smooth navigation and clear content hierarchy.
- Debugged and optimized frontend code to improve website performance, layout responsiveness, and overall usability.

Projects

Personal Portfolio Website | HTML, CSS, JavaScript

March 2025 – April 2025

- Built a multi-section personal portfolio website to professionally showcase skills, projects, and contact information with a clean and modern layout.
- Designed well-structured sections including About, Skills, Projects, and Contact to enhance content organization and improve user navigation.
- Implemented interactive JavaScript features such as smooth scrolling and client-side form validation to improve usability and user engagement.
- Applied responsive design techniques using CSS Flexbox and Grid to ensure consistent performance and visual alignment across desktop, tablet, and mobile devices.

E-Commerce website | HTML, CSS, JavaScript, PHP, MySQL

August 2025 – November 2025

- Designed and developed a multi-page e-commerce web application with Home, About, Products, and Contact pages following modern web development standards.
- Implemented interactive product listings and dynamic UI components using JavaScript to enhance user engagement and functionality.
- Built fully responsive layouts using CSS Flexbox and Grid, ensuring consistent performance across desktop and mobile devices.
- Integrated PHP and MySQL to manage backend data storage, handle contact form submissions, and support dynamic content rendering.

Awards & Certifications

- **Web Development Certificate – Teachnook (2024):** Completed hands-on training in frontend and backend web development covering HTML, CSS, JavaScript, PHP, MySQL, and responsive design principles, with practical project-based learning.

Education

Jaypee Institute of Information technology

2024 – 2027

Sector-62

CGPA: 7.8 / 10
